

Broadcasting Decision CRTC 2005-482

Ottawa, 5 October 2005

Astral Media Radio inc.
Trois-Rivières, Quebec

Application 2005-0809-6

CIGB-FM Trois-Rivières – Technical change

1. The Commission **approves** the application by Astral Media Radio inc. to change the authorized contours of the radio programming undertaking CIGB-FM Trois-Rivières, by decreasing the effective radiated power from 11,000 watts to 5,800 watts and by increasing the antenna height.
2. The applicant indicated that this amendment will not result in a significant change in the station's coverage.
3. The Department of Industry (the Department) has advised the Commission that, while this application is conditionally technically acceptable, it will only issue a broadcasting certificate when it has determined that the proposed technical parameters will not create any unacceptable interference with aeronautical NAV/COM services.
4. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.
