

Broadcasting Decision CRTC 2005-566

Ottawa, 30 November 2005

Canadian Broadcasting Corporation
Vancouver and Revelstoke, British Columbia

Application 2004-1443-3
Broadcasting Public Notice CRTC 2005-27
31 March 2005

CBUT Vancouver – New transmitter in Revelstoke

1. The Commission **approves** the application by the Canadian Broadcasting Corporation to amend the broadcasting licence for the television programming undertaking CBUT Vancouver, in order to operate a transmitter in Revelstoke to rebroadcast the programming of its national English-language network service.
2. The new transmitter will operate on channel 11LP with a transmitter power of 50 watts.
3. The Commission did not receive any interventions in connection with this application.
4. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department of Industry (the Department) notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.
5. Given that the technical parameters approved in this decision are for a low-power unprotected television service, the Commission also reminds the applicant that it will have to select another channel if the Department so requires.
6. The transmitter must be operational at the earliest possible date and in any event no later than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 30 November 2007. In order to ensure that such a request is processed in a timely manner, it should be submitted in writing at least 60 days before that date.

Secretary General

This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>
