Erratum

1. In the Appendix to *Cable broadcasting distribution undertakings*, Broadcasting Decision CRTC 2006-184, 5 May 2006 (Decision 2006-184), the Commission set out the following condition of licence:

3. The licensee is authorized to distribute, on a digital discretionary basis, a second set of 4+1 U.S. signals so long as the licensee complies with the following:

The distribution on a discretionary basis on the licensee's digital service of U.S. 4+1 signals, in addition to the set of such signals already carried by the undertaking, and of Canadian distant television signals provided for in the List of Part 2 Eligible Satellite Services, is subject to the provision that, with respect to such signals, the licensee adhere to the requirements regarding non-simultaneous program deletion set out in section 43 of the *Broadcasting Distribution Regulations*. The Commission may suspend the application of this provision in respect of a signal, upon its approval of an executed agreement between the licensee and the broadcaster concerned. Such an agreement must deal with issues related to the protection of program rights arising in connection with the discretionary carriage of a second set of U.S. 4+1 signals and of distant Canadian television signals.

2. The Commission hereby replaces condition of licence 3 set out in the Appendix to Decision 2006-184 with the following two **conditions of licence**:

3. The licensee is authorized to distribute, on a digital discretionary basis, a second set of 4+1 U.S. signals.

4. The distribution on a discretionary basis on the licensee's digital service of U.S. 4+1 signals, in addition to the set of such signals already carried by the undertaking, and of Canadian distant television signals provided for in the List of Part 3 Eligible Satellite Services, is subject to the provision that, with respect to such signals, the licensee adhere to the requirements regarding non-simultaneous program deletion set out in section 43 of the *Broadcasting Distribution Regulations*. The Commission may suspend the application of this provision in respect of a signal, upon its approval of an executed agreement between the licensee and the broadcaster concerned. Such an agreement must deal with issues related to the protection of program rights arising in connection with the discretionary carriage of a second set of U.S. 4+1 signals and of distant Canadian television signals.

3. All subsequent conditions of licence should be renumbered accordingly.
