#### 1. **Montréal, Quebec** **Application No. 2009-1228-9**

Application by the **Canadian Broadcasting Corporation** relating to the broadcasting licence for the radio programming undertaking CBF-FM Montréal.

**Application No. 2008-1552-4**

Application by **Touch Canada Broadcasting (2006) Inc. (the general partner) and 1188011 Alberta Ltd. and Touch Canada Broadcasting Inc. (the limited partners), carrying on business as Touch Canada Broadcasting Limited Partnership** (Touch Canada), for the use of frequency 90.5 MHz (channel 213B) for the operation of the English-language commercial FM radio programming undertaking approved in *Licensing of new radio stations to serve Red Deer and technical change relating to CJUV-FM Lacombe*, Broadcasting Decision CRTC 2008-287, 17 October 2008 (Decision 2008-287).

The new station would operate on frequency 90.5 MHz (channel 213B) with an average effective radiated power (ERP) of 24,000 watts (maximum ERP of 42,000 watts with an effective height of antenna above average terrain of 190.1 metres).

The present application was filed in response to Decision 2008-287, in which the Commission stated that it would only issue a licence to Touch Canada if it submitted an application proposing the use of another FM frequency and technical parameters that are acceptable to both the Commission and the Department of Industry.

The Commission notes that Touch Canada had initially proposed the use of 101.3 MHz in its application. However, in *Use of frequency 101.3 MHz by the new FM radio station in Red Deer*, Broadcasting Decision 2009-320, 1 June 2009, the Commission approved an application by L.A. Radio Group Inc. for the use of 101.3 MHz to operate a new English-language commercial FM radio programming undertaking in Red Deer.
