Bell Canada – Introduction of Bell Aliant Regional Communications, Limited Partnership tariffs

File numbers: Bell Communications Tariff Notices 4, 4A, 4B, 4D, and 7

1. On 1 February 2006, BCE Inc. (BCE) announced its intention to form a new regional income trust, Bell Communications (now Bell Aliant Regional Communications, Limited Partnership), that would offer wireline, legacy data, and Internet services in certain parts of Bell Canada's territory in Ontario and Quebec. BCE indicated that there would be no changes to the services offered to Bell Canada's customers, or to the terms and rates applicable to those services, as a result of this corporate restructuring.
2. The Commission received several applications by Bell Canada, including the above-mentioned tariff notices, which, according to the company, essentially replicate the Bell Canada tariffs for use by the new entity.
3. The Commission approved the above-mentioned tariff applications on an interim basis in Telecom Order 2006-161.
4. In Telecom Order 2006-194, the Commission approved Bell Canada's applications on a final basis, other than certain tariff items that could be affected by related ongoing proceedings. The Commission notes that these outstanding proceedings have now been completed and that it has consequently issued the following: Telecom Orders 2010-402, 2007-83, and 2007-22, as well as Telecom Decisions 2007-77 and 2007-21.
5. Accordingly, the Commission **approves on a final basis** the following tariff items:

<i>Tariff</i>	<i>Item</i>	<i>Service</i>
21560	5420	Ethernet Access
21560	5420	High Speed Access Service
21560	7010	Managed Internet Protocol Telephony Service
21560	7031	Bell Digital Voice
21562	123	Ethernet Transport Service

Secretary General

Canada^{ca}
