Application 2011-0246-7

Application by **Bell Aliant Regional Communications Inc. (the general partner), as well as limited partner with 6583458 Canada Inc. (the limited partners), carrying on business as Bell Aliant Regional Communications, Limited Partnership**, to amend the broadcasting licence for its regional Class 1 broadcasting distribution undertaking serving various municipalities in the Atlantic provinces.

The licensee proposes to replace the signal of WGBH-TV (PBS) Boston, Massachusetts, included in the set of U.S. 4+1 signals it distributes as part of its basic packages, with the signal of WMED-TV (PBS) Calais, Maine.

According to the licensee, the service area's geographical proximity to the Maine signal would result in more content that is likely to be of greater relevance to viewers in Atlantic Canada when compared to the content of the Boston station.

The intervention must be received by the Commission and by the applicant on or before the above-mentioned date. The Commission cannot be held responsible for postal delays and will not notify a party whose intervention is received after the deadline date. The intervention will not be considered by the Commission and will not be part of the public file.

Interventions will be considered by the Commission and will form part of the public record of the proceeding without further notification to intervening parties, provided the procedure set out below has been followed. Parties will be contacted only if their submissions raise procedural questions.

Written interventions should be submitted to the Secretary General of the Commission in **only one** of the following formats:

or

by mail to
CRTC, Ottawa, Ontario K1A 0N2

or

by fax at
819-994-0218

A true copy must be sent to the applicant, and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using e-mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Parties must ensure that, before initiating service through electronic mode, they will be able to satisfy the Commission, upon request, that service of the notification was completed.

Submissions longer than five pages should include a summary.

Each paragraph of the submission should be numbered. In addition, where the intervention is filed by electronic means, the line ***End of document*** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Interventions should clearly identify the application referred to and indicate whether parties support or oppose the application, or, if they propose changes to it, include the facts and grounds for their proposal.
