Reminders

Tangible benefits

3. The Commission reminds Coopérative Radio Web Média des Sources that it must pay any remaining tangible benefits stemming the ownership transaction that was approved in a letter decision in October 2018, within the timeline set out in the decision.

Local news

4. Radio stations are an important daily source of local news and information for communities. Holding a broadcasting licence comes with conditions, regulatory obligations and responsibilities, which include contributing to the Canadian broadcasting system by ensuring that Canadians have access to local programming that reflects their needs and interests and informs them of important current issues.
5. Although Broadcasting Regulatory Policy 2022-332 does not specify a minimum level of weekly news to be broadcast, it does specify the type of spoken word material that must be included as part of a station's local programming. In accordance with that regulatory policy, the Commission reminds the licensees that their stations, in their local programming, must incorporate spoken word material of direct and

particular relevance to the communities served, and that this programming must include local news, weather, sports coverage, and the promotion of local events and activities. In addition, the Commission encourages the licensees to ensure that a reasonable amount of daily local news and information is made available to those communities.

Force and effect of broadcasting licences

6. Pursuant to section 22 of the *Broadcasting Act*, the broadcasting licences renewed in this decision will cease to have any force or effect if the broadcasting certificates issued by the Department of Industry (also known as Innovation, Science and Economic Development Canada) lapse.

Employment equity

7. Because RNC MEDIA Inc. is subject to the *Employment Equity Act* and files reports concerning employment equity with the Department of Employment and Social Development (also known as Employment and Social Development Canada), its employment equity practices are not examined by the Commission.

Expectations applicable to all stations

Cultural diversity

The Commission expects the licensee to reflect the cultural diversity of Canada in its programming and employment practices.

Canadian emerging artists

Consistent with the Commission's determination set out in *Revised Commercial Radio Policy*, Broadcasting Regulatory Policy CRTC 2022-332, 7 December 2022 (Broadcasting Regulatory Policy 2022-332), the Commission expects the licensee to devote, in each broadcast week, at least 5% of the station's musical selections to selections from Canadian emerging artists broadcast in their entirety. The licensee should report annually on how it has met this expectation, including the percentage of selections from Canadian emerging artists out of the total number of musical selections that were aired, and the number of distinct artists whose music has been aired. The licensee should also be able to provide, upon request, information such as a list of all titles, artists, and International Standard Recording Code (ISRC) numbers.

For the purposes of the above paragraph, the definition of “Canadian emerging artist” is the same as that set out in paragraph 346 of Broadcasting Regulatory Policy 2022-332.

Indigenous musical selections

Consistent with the Commission’s determination set out in *Revised Commercial Radio Policy*, Broadcasting Regulatory Policy CRTC 2022-332, 7 December 2022 (Broadcasting Regulatory Policy 2022-332), the Commission expects the licensee to include Indigenous musical selections on the station’s playlist. The licensee should report annually on the amount of Indigenous content aired on the station throughout the broadcast year (i.e., from 1 September to 31 August), including the percentage of Indigenous musical selections out of the total number of musical selections that were aired, and the number of distinct artists whose music has been aired. The licensee should also be able to provide, upon request, information such as a list of all titles, artists, and International Standard Recording Code (ISRC) numbers.

For the purposes of the above paragraph, the licensee may use the provisional definition of “Indigenous-Canadian musical selection” set out in paragraph 441 of Broadcasting Regulatory Policy 2022-332 to determine whether a musical selection can be considered an Indigenous musical selection.

Encouragement applicable to all stations with the exception of CHLX-FM Gatineau, Quebec

In accordance with *Implementation of an employment equity policy*, Public Notice CRTC 1992-59, 1 September 1992, the Commission encourages the licensee to consider employment equity in its hiring practices and in all other aspects of its management of human resources.
