**Re: Fido Solutions Inc. ("Fido") - Entry as a Competitive Local Exchange Carrier ("CLEC") into 12 new Alberta Exchanges (NPA 403) – Red Deer LIR**

Dear Ms. Rhéaume,

In accordance with the procedures set out at paragraph 295 of Telecom Decision CRTC 97-8 ("Decision 97-8"), Fido is hereby informing the Commission of its status in meeting the CLEC obligations in the Alberta exchanges of Olds, Sunde, Three Hills, Didsbury, Drumheller, Hanna, Consort, Coronation, Bowden, Oyen, Rocky Mountain House, Stettler (all within the Red Deer LIR).

By this letter, we confirm that Fido has met or will soon meet all of the obligations required to offer local services as a CLEC to consumers in the above-mentioned exchanges. Our CLEC deployment in these Alberta exchanges, under the new Local Interconnection Region (LIR) regime, is almost fully completed. These 12 exchanges are included in the Red Deer LIR, so Fido would not be obliged to deploy new POIs within this area.

In a letter dated September 13, 2001 Fido outlined in detail all of the CLEC entry obligations from Decision 97-8 and specified how it intended to meet these obligations in the Alberta exchanges of Calgary and Red Deer. In a Decision Letter dated September 21, 2001, the Commission recognized that Fido had met the CLEC requirements set out in Decision 97-8 and authorized Fido to provide services as a CLEC in these exchanges. Fido is now operating as a CLEC in these exchanges. Fido also operates as a CLEC in a number of exchanges in the provinces of British Columbia, Ontario and Quebec.

Fido hereby re-attests that it understands and will conform to the CLEC obligations set out in Decision 97-8. Fido is providing herein only the incremental information required for entry into these Alberta exchanges. For further details respecting our compliance with CLEC obligations generally, please refer to Fido's September 13, 2001 letter to the Commission, referenced above.

**New NXXs**

As per Decision 97-8, CLECs are obliged to obtain one NXX in each and every exchange where they operate. Therefore, Fido requires twelve (12) new NXXs in Alberta. Fido notes that NPA 403 is currently under a Jeopardy Contingency Plan. The Section #11 of the

Fido and Telus executed a Master Agreement for Local Interconnection ("MALI"), version #25, for the purpose of exchanging traffic in Calgary and Red Deer (dated August 8<sup>th</sup>, 2001). A new MALI, version #28, as well as a new Appendix of a revised Schedule C for the Red Deer LIR, are expected to be filed shortly with the Commission. This would accommodate Fido's CLEC entry into the exchanges of Olds, Sundre, Three Hills, Didsbury, Drumheller, Hanna, Consort, Coronation, Bowden, Oyen, Rocky Mountain House, Stettler.

### ***E9-1-1 Service Deployment***

Fido has completed implementation of Wireless E9-1-1 service in all of the Alberta exchanges mentioned in this letter.

### ***Conclusion***

In accordance with sub-paragraph 295(2) of Decision 97-8, Fido has served a copy of this letter on LECs who provide service in Alberta. Fido has also served a copy of this letter on the parties listed in the most recent version of the "Proposed CLEC List", as it appeared on the Commission's web site on January 22, 2007.

Fido is also providing a copy of this letter to the Central Funds Administrator ("CFA") and to the three industry consortia identified below.

We trust the enclosed conforms to the Commission's entry procedures and provides assurance that Fido has met the obligations required to provide service as a CLEC in the above-mentioned Alberta exchanges.

Should you have any questions regarding this letter or any of the referenced documents, please do not hesitate to contact us. Trusting the whole is satisfactory we remain,

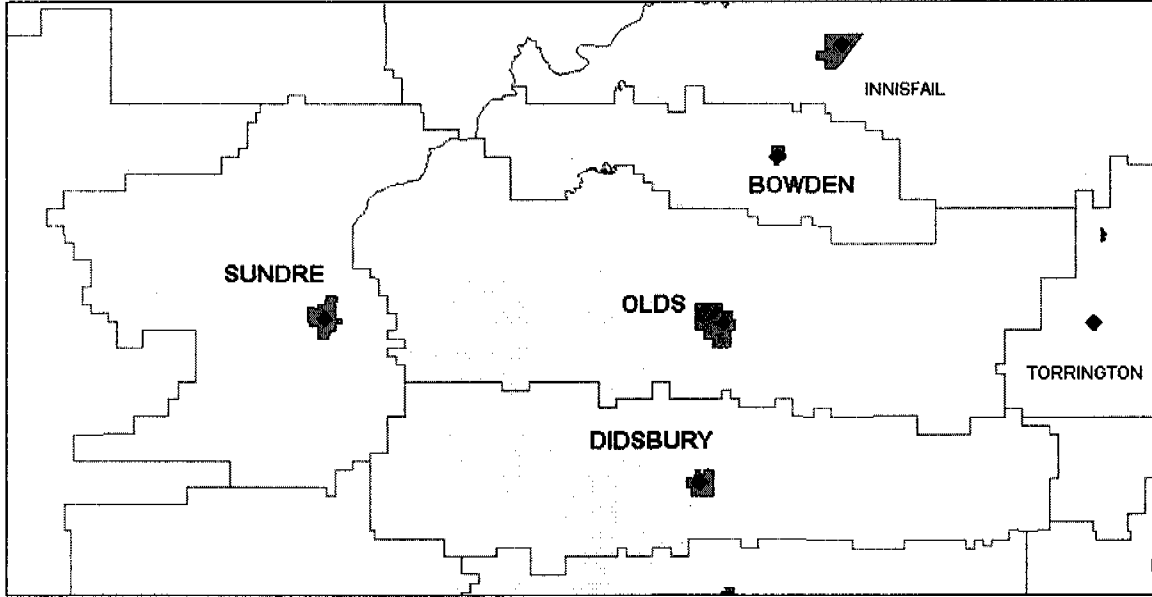

Yours very truly,

Simon-Pierre Olivier  
Director, Regulatory Affairs
