

Broadcasting Decision CRTC 2005-535

Ottawa, 27 October 2005

Rogers Broadcasting Limited
North Bay, Ontario

Application 2005-0969-8

CHUR-FM North Bay – Technical change

1. The Commission **approves** the application by Rogers Broadcasting Limited to change the authorized contours of the radio programming undertaking CHUR-FM North Bay, by decreasing the antenna height and by relocating the transmitter.
2. Even though this technical modification will slightly reduce the total coverage area, it is foreseen that the new transmitting site will provide much better coverage for the core market and a vast majority of the station's listeners.
3. The Commission reminds the licensee that, pursuant to section 22(1) of the Broadcasting Act, this authority will only be effective when the Department of Industry notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.

Secretary General
