

Broadcasting Decision CRTC 2006-105

Ottawa, 29 March 2006

Canadian Broadcasting Corporation

St. John's and Fermeuse, Newfoundland and Labrador

Application 2005-1345-9

Broadcasting Public Notice CRTC 2006-7

19 January 2006

CBN St. John's – New transmitter in Fermeuse

1. The Commission **approves** the application by the Canadian Broadcasting Corporation to amend the broadcasting licence for the radio programming undertaking CBN St. John's, in order to operate an FM transmitter in Fermeuse to rebroadcast the programming of its national English-language network service Radio One.
2. The new transmitter will operate at 104.3 MHz (channel 282A) with an average effective radiated power of 1,040 watts.
3. The Commission did not receive any interventions in connection with this application.
4. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department of Industry notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.
5. The transmitter must be operational at the earliest possible date and in any event no later than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 29 March 2008. In order to ensure that such a request is processed in a timely manner, it should be submitted in writing at least 60 days before that date.

Secretary General

This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>
