### **Radiocommunication distribution undertaking**

1. The Commission **approves** the application by FormationPLUS, Centre de formation francophone pour adultes for a broadcasting licence to operate a radiocommunication distribution undertaking to serve Chapleau, Ontario. The licence will expire 31 August 2013 and will be subject to the **conditions** specified therein.
2. The new undertaking will distribute, in non-encrypted mode, the programming service of the Haliburton Broadcasting Group originating from CHYC-FM Sudbury, Ontario, using an FM transmitter, operating at 95.9 MHz (channel 240LP) with an effective radiated power of 40 watts.
3. The Commission did not receive any interventions in connection with this application.
4. The Department of Industry (the Department) has advised the Commission that, while this application is conditionally technically acceptable, it will only issue a broadcasting certificate when it has determined that the proposed technical parameters will not create any unacceptable interference with aeronautical NAV/COM services.
5. The Commission reminds the applicant that, pursuant to section 22(1) of the *Broadcasting Act*, no licence may be issued until the Department notifies the Commission that its technical requirements have been met and that a broadcasting certificate will be issued.
6. Furthermore, the licence for this undertaking will be issued once the applicant has informed the Commission in writing that it is prepared to commence operations. The undertaking must be operational at the earliest possible date and in any event no later

than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 20 February 2009. In order to ensure that such a request is processed in a timely manner, it should be submitted at least 60 days before this date.
