

Broadcasting Public Notice CRTC 2007-116

Ottawa, 16 October 2007

Applications processed pursuant to the streamlined procedure

In this public notice, the Commission publishes a list of applications involving transfers of ownership and changes in the effective control of broadcasting undertakings as well as applications for amendments or extensions of deadlines not requiring a public process, which it has processed during the period 1 July 2007 to 31 August 2007 pursuant to its streamlined procedure.

1. The Commission has a streamlined procedure for its consideration of applications involving transfers of ownership and changes in the effective control of broadcasting undertakings as well as applications for amendments or extensions of deadlines not requiring a public process. Under this procedure, and on a case-by-case basis, the Commission may approve or deny such an application without first having issued a public notice provided that:
 - a) its examination of the application reveals the presence of no significant policy concern; and
 - b) the Commission is convinced that approval or denial would be consistent with its approvals or denials of previous applications.
2. Where these two conditions are met, the Commission is generally satisfied that a process initiated by a public notice is not required in the public interest, and would unnecessarily delay implementation of the transaction contemplated or of other proposals by the applicant.
3. In the appendices to this public notice, the Commission publishes a list of applications involving transfers of ownership and changes in the effective control of broadcasting undertakings (Appendix 1) as well as applications for amendments or extensions of deadlines not requiring a public process (Appendix 2) that it has processed during the period 1 July 2007 to 31 August 2007 pursuant to its streamlined procedure.

Secretary General
