Application No. 2007-0948-8

1. **Tillsonburg, Ontario**
Application No. 2007-0948-8

Application by **Rogers Cable Communications Inc.** (Rogers) to amend the licence of its Class 2 cable broadcasting distribution undertaking serving Tillsonburg, Ontario.

The licensee specifies that these amendments apply to both its current Class 2 licence as well as its proposed Class 2 regional licence applied for in application 2006-1627-9, if approved by the Commission.

The licensee proposes to delete its authority to distribute WKBW-TV (ABC) Buffalo, New York, received over the air, as part of the basic service, and add the following condition of licence:

The licensee is authorized to distribute, at its option, the signals of WJET-TV (ABC) Erie, Pennsylvania, WOIO (CBS) Cleveland, and WUAB (MyTV) Cleveland, Ohio, as part of the basic service.

Rogers states that these amendments are requested to enable it to mirror on its Tillsonburg system the channel lineup offered on the St. Thomas/Strathroy system since these systems will be interconnected.

Rogers also states that, as a result of this interconnection, Rogers' customers in Tillsonburg will receive a greatly expanded cable TV lineup and have access to a broader selection of Canadian and non-Canadian digital channels, which have not been available due to capacity constraints.

With respect to WOIO (CBS) Cleveland, Rogers states that it recognizes that it is an exception for a licensee to carry duplicate U.S. affiliates on basic. However, the licensee states that the Commission granted this exception to Rogers when it interconnected the St. Thomas and Strathroy service areas. It further states that the St. Thomas/Strathroy system is authorized to carry two duplicate U.S. CBS affiliates on basic, namely, WWJ-TV Detroit, Michigan and WOIO.

With respect to WUAB, Rogers states that it recognizes that adding this channel to the Tillsonburg basic lineup adds another non-Canadian viewing option. However, the licensee states that this channel is on the *Lists of Eligible Satellite Services* and a precedent already exists in St. Thomas/Strathroy, which currently has the authority to carry this signal as part of the basic service.
