

## Broadcasting Decision CRTC 2008-123

Ottawa, 12 June 2008

**591991 B.C. Ltd.**  
Gatineau, Quebec

*Application 2008-0399-1, received 13 March 2008*  
*Broadcasting Public Notice CRTC 2008-27*  
*8 April 2008*

### **CJRC-FM Gatineau – Technical change**

1. The Commission **approves** the application by 591991 B.C. Ltd. to amend the broadcasting licence for the French-language commercial radio programming undertaking CJRC-FM Gatineau in order to change the authorized contours by increasing the average effective radiated power from 2,900 to 36,000 watts, by decreasing the effective antenna height from 94.9 to 41.5 meters, and by relocating the transmitter from its downtown Ottawa site to one north-east of the Gatineau airport.
2. The licensee indicated that this technical change will allow it to enhance coverage within the station's main market.
3. The Commission received interventions in support of this application.
4. The Commission reminds the licensee that pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department of Industry notifies the Commission that its technical requirements have been met and that a broadcasting certificate will be issued.

Secretary General

*This decision is to be appended to the licence. It is available in alternative format upon request and may also be examined in [PDF format](#) or in HTML at the following Internet site: <http://www.crtc.gc.ca>.*
