Broadcasting Public Notice CRTC 2008-35
24 April 2008

CFID-FM Acton Vale – Technical change

1. The Commission **approves** the application by Radio-Acton inc. to change the authorized contours of the French-language Type B community radio programming undertaking CFID-FM Acton Vale by increasing the average effective radiated power from 1,650 to 2,647 watts.
2. The licensee stated that this change would improve the signal for CFID-FM in its service area.
3. The Commission received an intervention in support of this application.
4. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department of Industry notifies the Commission that its technical requirements have been met and that a broadcasting certificate will be issued.
