

Broadcasting Decision CRTC 2008-193

Ottawa, 20 August 2008

Various radiocommunication distribution undertakings multipoint distribution systems

Various locations in British Columbia, Manitoba, Ontario and Quebec

Administrative renewals

1. The Commission **renews** the broadcasting licences for the radiocommunication distribution undertakings multipoint distribution systems (MDS) listed in the appendix to this decision, until 31 August 2011, subject to the terms and conditions in effect under the current licences. The current licence expiry dates are also set out in the appendix.
2. The Department of Industry has indicated that it will be conducting a MDS spectrum auction. For that reason, it is not prepared, at this time, to renew the broadcasting certificates for MDS undertakings beyond 2011. In the circumstances, the Commission considers that it is appropriate to administratively renew the licences for these undertakings until 31 August 2011.
3. This decision does not dispose of any substantive issue that may exist with respect to the renewal of these licences and interested parties will have an opportunity to comment at the appropriate time.

Secretary General

This decision is to be appended to each licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>.
