

Broadcasting Decision CRTC 2008-266

Ottawa, 24 September 2008

Toronto Raptors Network Ltd. Across Canada

Application 2008-0884-2, received 24 June 2008
Broadcasting Public Notice CRTC 2008-64
18 July 2008

Raptors NBA TV – Licence amendment

1. The Commission **approves** the application by Toronto Raptors Network Ltd. to amend the broadcasting licence for the national Category 2 specialty programming undertaking known as Raptors NBA TV to allow the service to be made available for distribution in high definition (HD) format.
2. The Commission received two interventions in support of this application as well as one comment asking that Raptors NBA TV be offered in Quebec. The licensee did not respond to the interventions.
3. In Broadcasting Public Notices 2003-61 and 2006-74, the Commission stated that it would authorize the licensee of a Canadian pay or specialty service to make available an upgraded version of its service, by means of an amendment to the licence of the existing service. This authority would be in effect for a term of three years.
4. The Commission notes, however, that the current licence for the undertaking expires 31 August 2009.
5. The Commission further stated in Broadcasting Public Notice 2006-74:

Those services that are authorized to offer HD programming by way of licence amendment will remain subject to the requirement initially imposed in [Broadcasting] Public Notice 2003-61 that the programming on the analog or SD [standard definition] service and on the upgraded service be comparable, that is, not less than 95% of the video and audio components must be the same. Further, the Commission will require that all of the programming making up the 5% allowance be provided in HD.

6. Accordingly, by **condition of licence**, the licensee is authorized to make available for distribution, until the end of its current licence term, a version of Raptors NBA TV in HD format, provided that not less than 95% of the video and audio components of the upgraded and standard definition versions of the service are the same, exclusive of commercial messages and of any part of the service carried on a subsidiary signal. Further, all of the programming making up the 5% allowance shall be provided in HD.
