1. **Peterborough, Ontario** **Application No. 2008-1069-9**

Application by **591989 B.C. Ltd.**, a subsidiary of Corus Entertainment Inc., for the use of frequency 100.5 MHz (channel 263B1) with an average effective radiated power of 5,000 watts (maximum effective radiated power of 15,000 watts with an average effective height of antenna above average terrain of 75.3 metres) for the operation of the English-language commercial FM radio programming undertaking in Peterborough, Ontario, which was approved in Broadcasting Decision CRTC 2008-98, *Licensing of new radio stations to serve Peterborough and the City of Kawartha Lakes*, 8 May 2008 (Decision 2008-98) to replace its AM station CKRU.

The present application is filed in response to Decision 2008-98, in which the Commission stated that it would only issue a licence to 591989 B.C. Ltd., if it submitted, within three months from the date of the decision, an application proposing the use of another FM frequency and technical parameters that are acceptable to both the Commission and the Department of Industry.

2. **Wingham and Centreville/Meaford, Ontario**
Application No. 2008-0985-8

Application by **Blackburn Radio Inc.** (Blackburn) to amend the licence of the English-language commercial radio programming undertaking CKNX-FM Wingham and its transmitter CKNX-FM-2 Centreville/Meaford.

The licensee proposes to change the frequency from 104.9 MHz (channel 285LP) to 102.7 MHz (channel 274A1) of its transmitter CKNX-FM-2 Centreville/Meaford. In addition, the licensee proposes to increase the average effective radiated power from 5 watts to 250 watts.

The licensee wishes to obtain a protected frequency for CKNX-FM-2 that will provide a more stable method of delivery into Meaford and vicinity than is currently achieved via their unprotected, low-power FM repeater.

The licensee states that this request has been motivated in part by an application by Evanov Communications Inc. (Evanov) for the use of 104.9 MHz for an English language FM station in Shelburne (Ontario). It is noted that, subsequently, in Broadcasting Decision CRTC 2008-159 dated 1 August 2008, Evanov's Shelburne new FM application has been denied.

The licensee also notes that because Bayshore Broadcasting Corporation operates its CHWC-FM station on 104.9 MHz which is available in Centreville/Meaford, Blackburn's on-air identification and general promotion of their Centreville/Meaford repeater on 104.9 MHz is problematic and confusing.

The transmitter location would remain at the present CKNX-FM-2 Centreville/Meaford transmitter site.
