#### **1. Kaministiquia, Ontario Application No. 2010-0384-7**

Application by **Northwest Broadcasting Inc.** to amend the broadcasting licence of the commercial radio programming undertaking CFQK-FM Kaministiquia.

The licensee proposes to change the authorized contours of its transmitter CFQK-FM Kaministiquia by increasing the effective radiated power from 50 watts to 250 watts (non-directional antenna with an effective height of antenna above average terrain to 110.3 metres).

The amendment would change the station's status from unprotected low-power to protected status.

The licensee indicated that it wished to improve the quality of the station's signal. Its current technical parameters limit reception of its signal in buildings located in the area that it is currently licensed to serve.

The Commission notes that, should the application be approved, the population within the 3 mV/m contour would increase from 1,201 to 2,935 and from 16,882 to 117,064 within the 0.5 mV/m contour.

The licensee has requested an exemption to the Commission's common ownership policy set out in *Commercial Radio Policy 1998*, Public Notice CRTC 1998-41, 30 April 1998.
