2. Montréal (zone LaSalle), Quebec
Application 2010-0546-3

Application by **La radio communautaire de LaSalle** relating to the broadcasting licence for the French-language Type B community FM radio programming undertaking CKVL-FM Montréal (zone LaSalle), Quebec.

The licensee proposes to relocate its studios and its transmitter site to zone LaSalle City Hall. It also proposes to modify the station's technical parameters by changing the antenna's radiation pattern from omni-directional to directional and by changing the authorized contours by decreasing the average effective radiated power (ERP) from 250 to 110 watts (maximum ERP of 870 watts with an increase in the effective height of antenna above average terrain from -0.5 to 40.4 metres).

The licensee stated that the proposed changes will result in a better quality signal to listeners located in Montréal (zone LaSalle) who are currently experiencing poor reception of CKVL-FM. The licensee also stated that this change is necessary to keep the station in operation.
