Application 2010-0946-5, received 7 June 2010

CBF-FM-8 Trois-Rivières and CBF-FM Montréal – Licence amendments

1. The Commission **approves** an application by the Canadian Broadcasting Corporation to amend the broadcasting licences of the French-language radio programming undertakings CBF-FM-8 Trois-Rivières and CBF-FM Montréal. The licensee proposes to add transmitters CBF-16 Clova, CBF-17 Lac Édouard and CBF-18 Parent to CBF-FM-8's licence in order to rebroadcast its programming, and to remove these transmitters from CBF-FM's licence. All technical parameters remain unchanged. Only the source of programming will be amended. The Commission did not receive any interventions in connection with this application.
2. The licensee indicated that these amendments will allow it to better serve the population living in these three transmitters' authorised contours by giving them access to CBF-FM-8's local and regional programming.
3. The Commission notes that approval of this application will have no technical impact since all of the transmitters' technical parameters will remain the same, the transmitters will not be moved and no change to their authorised contours are planned.
