1. **Saltspring Island, British Columbia**  
**Application No. 2010-1184-0**

Application by **Rogers Broadcasting Limited** to amend the broadcasting licence of the English-language commercial FM radio programming undertaking CIOC-FM Victoria, British Columbia.

The licensee proposes to add an FM transmitter at Saltspring Island to broadcast the programming of CIOC-FM in order to improve reception quality within the existing coverage area of CIOC-FM.

The transmitter would operate at 98.5 MHz (channel 253A) with an average effective radiated power (ERP) of 15 watts (maximum ERP of 45 watts with an effective height of antenna above average terrain of 662 metres).

The transmitter would be a synchronous repeater, using the same frequency as CIOC-FM.

The licensee states that a transmitter located on Saltspring Island would be the optimal solution to correcting the reception deficiencies of CIOC-FM in the north part of its coverage area.

Parties must ensure that, before initiating service through electronic mode, they will be able to satisfy the Commission, upon request, that service of the notification was completed.

Submissions longer than five pages should include a summary.

Each paragraph of the submission should be numbered. In addition, where the intervention is filed by electronic means, the line **\*\*\*End of document\*\*\*** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.
