### **CILK-FM Kelowna – Deletion of rebroadcasting transmitter**

1. The Commission **approves** the application by Bell Media Radio (Toronto) Inc. and 4382072 Canada Inc., partners in a general partnership carrying on business as Bell Media Radio G.P. to amend the broadcasting licence for the English-language commercial radio programming undertaking CILK-FM Kelowna, British Columbia, by deleting the rebroadcasting transmitter CILC-FM Magna Bay. The Commission did not receive any interventions regarding this application.
2. The licensee stated that the cost of maintaining and accessing the transmitter site and the lack of revenue generated by the rebroadcasting transmitter's operation are the reasons for this request. The licensee added that area residents will continue to be served by its English-language radio station CKXR-FM Salmon Arm, which offers programming similar to that of CILK-FM.
