Determination of costs award with respect to the participation of the Deafness Advocacy Association Nova Scotia in the proceeding that led to Telecom Decision 2021-199

Application

1. By letter dated 9 December 2020, the Deafness Advocacy Association Nova Scotia (DAANS) applied for costs with respect to its participation in the proceeding that led to Telecom Decision 2021-199 (the proceeding). In that decision, the Commission established new deadlines for the implementation of next-generation 9-1-1 (NG9-1-1) to replace deadlines that were suspended due to the COVID-19 pandemic.
2. TELUS Communications Inc. (TCI) filed an answer, dated 16 December 2020, in response to DAANS' application and other costs applications, from other applicants, related to the proceeding. DAANS filed a joint reply to this answer with the Newfoundland and Labrador Association of the Deaf (NLAD) and the Ontario Association of the Deaf (OAD) on 18 January 2021.
3. DAANS submitted that it had met the criteria for an award of costs set out in section 68 of the *Canadian Radio-television and Telecommunications Commission Rules of Practice and Procedure* (the Rules of Procedure) because it represented a group or class of subscribers that had an interest in the outcome of the proceeding, it assisted the Commission in developing a better understanding of the matters that were considered, and it had participated in a responsible way.
4. In particular, DAANS submitted that it represents the interests of Deaf, deaf-blind, hard-of-hearing, and late-deafened Nova Scotians and provided a better understanding of accessibility-related issues in relation to the subject of the proceeding. DAANS also submitted that it advanced the interests of Deaf, deaf-blind, hard-of-hearing, and late-deafened Nova Scotians by offering a distinct and unique point of view.
5. DAANS requested that the Commission fix its costs at \$2,633.65, consisting of in-house consultant fees, a fee for notarial services, and photocopying costs. DAANS filed an affidavit of disbursements with its application.
6. DAANS claimed 5.5 days at a rate of \$470 per day for a total of \$2,585 for in-house consultant fees, which included work to review the file and the preparation of

submissions and comments. DAANS also claimed \$35 for notarial services and \$13.65 for photocopying costs. The total claimed amount is \$2,633.65.

7. DAANS submitted that telecommunications service providers (TSPs) that participated in the proceeding are the appropriate parties to be required to pay any costs awarded by the Commission (the costs respondents).
8. DAANS suggested that the responsibility for payment of costs should be divided among the costs respondents on the basis of their gross revenues or another similar factor.

Answer

9. TCI opposed DAANS' application for costs, arguing that DAANS did not meet the criteria for a cost award. TCI argued that DAANS' submission regarding the necessity of access to teletypewriters did not provide the Commission with a better understanding of the issues or advance the interests of participants. TCI further argued that DAANS did not raise accessibility issues related to 9-1-1 in the proceeding initiated by Telecom Notice of Consultation 2020-178 when it would have been appropriate for it to do so.

Reply

10. In their joint reply, DAANS, NLAD, and the OAD submitted that their submission related to backwards compatibility of NG9-1-1 was appropriate and not out of the scope of the proceeding. The associations further argued that their submission responsibly contributed to the Commission's understanding of NG9-1-1 milestone deadlines through a Deaf and hard-of-hearing accessibility/friendliness lens.

Commission's analysis and determinations

11. The criteria for an award of costs are set out in section 68 of the Rules of Procedure, which reads as follows:
 68. The Commission must determine whether to award final costs and the maximum percentage of costs that is to be awarded on the basis of the following criteria:
 - (a) whether the applicant had, or was the representative of a group or a class of subscribers that had, an interest in the outcome of the proceeding;
 - (b) the extent to which the applicant assisted the Commission in developing a better understanding of the matters that were considered; and
 - (c) whether the applicant participated in the proceeding in a responsible way.

12. In Telecom Information Bulletin 2016-188, the Commission provided guidance regarding how an applicant may demonstrate that it satisfies the first criterion with respect to its representation of interested subscribers. In the present case, DAANS has demonstrated that it meets this requirement. DAANS represented Deaf, deaf-blind, hard-of-hearing, and late-deafened Nova Scotians.
13. DAANS has also satisfied the remaining criteria through its participation in the proceeding. Notably, DAANS' submission, in particular the content regarding accessibility concerns with milestones for the implementation of NG9-1-1, assisted the Commission in developing a better understanding of the matters that were considered.
14. The rates claimed in respect of consultant fees are in accordance with the rates established in the *Guidelines for the Assessment of Costs*, as set out in Telecom Regulatory Policy 2010-963. The Commission finds that the total amount claimed by DAANS was necessarily and reasonably incurred and should be allowed.
15. This is an appropriate case in which to fix the costs and dispense with taxation, in accordance with the streamlined procedure set out in Telecom Public Notice 2002-5.
16. The Commission has generally determined that the appropriate costs respondents to an award of costs are the parties that have a significant interest in the outcome of the proceeding in question and have participated actively in that proceeding. The Commission considers that the following parties that participated in the proceeding have a significant interest in the outcome of the proceeding and participated actively in the proceeding: Bell Canada, on its own behalf and on behalf of its affiliate Bell Mobility Inc. (collectively, the Bell companies); Bragg Communications Incorporated, carrying on business as Eastlink; Brooke Telecom Co-operative Ltd.; Bruce Telecom Ontario Inc.; Execulink Telecom Inc.; Hay Communications Co-operative Limited; Huron Telecommunications Co-operative Limited; Ice Wireless Inc.; Mornington Communications Co-operative Limited; Quadro Communications Co-operative Inc.; Quebecor Media Inc., on behalf of Videotron Ltd.; Rogers Communications Canada Inc. (RCCI); Saskatchewan Telecommunications; Shaw Communications Inc.; Sogetel inc.; Tuckersmith Communications Co-operative Limited; TBayTel; TCI; Wightman Telecom Ltd.; Xplornet Communications Inc.; and Ztar Mobile Canada, Inc.
17. Accordingly, the appropriate costs respondents to DAANS' costs application are the TSPs that participated in the proceeding.
18. The Commission considers that, consistent with its practice, it is appropriate to allocate the responsibility for payment of costs among costs respondents based on

their telecommunications operating revenues (TORs) as an indicator of the relative size and interest of the parties involved in the proceeding.¹

19. However, as set out in Telecom Order 2015-160, the Commission considers \$1,000 to be the minimum amount that a costs respondent should be required to pay, due to the administrative burden that small costs awards impose on both the applicant and costs respondents.
20. Accordingly, the Commission finds that the responsibility for payment of costs should be allocated as follows:²

Company	Proportion	Amount
Bell companies	59.4%	\$1,564.39
RCCI	40.6%	\$1,069.26

21. Consistent with its general approach articulated in Telecom Costs Order 2002-4, the Commission makes Bell Canada responsible for payment on behalf of the Bell companies. The Commission leaves it to the members of the Bell companies to determine the appropriate allocation of the costs among themselves.

2019 Policy Direction

22. The Governor in Council issued a policy direction in which it directed the Commission to consider how its decisions can promote competition, affordability, consumer interests, and innovation (the 2019 Policy Direction).³ The Commission considers that the awarding of costs in this instance is consistent with subparagraph 1(a)(iv) of the 2019 Policy Direction.
23. By facilitating the participation of a group that represents consumer interests, this order contributes to furthering the interests of consumers in their relationships with TSPs. Since consumer groups often require financial assistance to effectively participate in Commission proceedings, the Commission is of the view that its practice of awarding costs, as exercised in this instance, enables such groups to provide their perspectives on how consumer interests may be affected by the outcomes of the proceedings. In light of the above, the Commission considers that its determination to award costs to DAANS promotes consumer interests.

¹ TORs consist of Canadian telecommunications revenues from local and access, long distance, data, private line, Internet, and wireless services.

² In this order, the Commission has used the TORs of the costs respondents based on their most recent audited financial statements.

³ *Order Issuing a Direction to the CRTC on Implementing the Canadian Telecommunications Policy Objectives to Promote Competition, Affordability, Consumer Interests and Innovation*, SOR/2019-227, 17 June 2019

Directions regarding costs

24. The Commission **approves** the application by DAANS for costs with respect to its participation in the proceeding.
25. Pursuant to subsection 56(1) of the *Telecommunications Act*, the Commission fixes the costs to be paid to DAANS at \$2,633.65.
26. The Commission **directs** that the award of costs to DAANS be paid forthwith by Bell Canada and RCCI according to the proportions set out in paragraphs 19 and 20.
